They hit on the masts and ropes, but were blown off and fell to the deck. The shock killed them as fast as they fell. Captain Stone says about 500 or 600 of the birds died in this way. It is thought the birds were blown off shore.

The complaint was that Long had taken prisoners from the penitentiary to his home, where they did repairing and plumbing who wrecked the banks around Necedah. The charges are based on the alleged conduct of Long during the administration of Warden Darby. To the board of managers Deputy Warden Long acknowledged that he used prisoners as charged, but he says, the job, and he got it. He was established on the fence, and soon the banker let fall his identity, although he is still known as Thomas on the pay rolls. He occasionally comes to Truxillo, but his home is in the woods.

KIDNAPS CHILD; DEFIES OFFICER

Wapakoneta, O., Sept. 16.—Driving rapidly down the street in which a three year old child was playing in front of the home of Mrs. and Mrs. J. L. Haney of St. Mary's, who thought they had adopted the child several months ago, Mrs. James Wyckoff reached out of the buggy and kidnapped the little girl in plain sight of its foster parents and carried it off to her home.

Mrs. Wyckoff, the divorced wife of C. E. Wyckoff, was recently married again. Monday Mr. Haney and Constable Taylor located the mother at the home of Manley Wawson, seven miles north of town. When Mrs. Wyckoff saw the officer coming she locked the child and herself in a room and defied the officer to break in, which he refused to do without a warrant.

It seems the adoption of the little girl by Mr. and Mrs. Haney was not entirely legal and the mother still has her child.

VILLAGES BURNED

And Many Fugitives Are Destitute—An Appalling Famine in the District Seems Inevitable—The British Aroused.

London, Sept. 16.—The correspondent of the Central News, who is traveling with a portion of the insurgent army in the eastern section of the Balkans, today wires from Alaukairak, town south of Burgas, giving some details of the awful state of affairs in Adrianople vilayet. He says:

"I left Sofia on September 8. All has been waste and desolation en route to this place. The villages south of us have been all destroyed by fire by the Turks and not a house has been left standing. A heavy pall of smoke hangs along the horizon. So far we have come across 2,000 fugitives, destitute."

"I went to three of the burned villages and found not a sign of life. Everything had been taken away or burned."

"The sufferings of the fugitive women and children are terrible. We have had no fighting yet, but have had some sharp skirmishing. I have seen a few dead and several wounded Macedonians, but thus far have come across no women or children who have been hurt. An appalling famine in the district seems inevitable."

At the adjournment of court, seven out of the twenty-four jurymen examined had been accepted.

At the opening of court this morning the seven jurors selected were brought into court in charge of Sheriff Leach and Deputy Rees, closely followed by the defendant, Jett, escorted by the bailer and four deputies. The special venire of fifty men drawn from the

wheel to complete the jury was in court. S. H. Roberts, one of the men selected yesterday, was excused to-day, having been learned by Judge Blanton for the defense that Roberts had formed and expressed an opinion several times in public, saying, it is alleged, that he "would hang Jett, no matter what the evidence was."

When accepted for jury service he swore he had never expressed an opinion. When Judge Blanton discovered the facts he went quietly to the attorneys for the commonwealth and acquainted them with the facts and they readily consented to excuse Roberts.

Bar Harbor, Me., Sept. 16.—Joseph Leiter, at one time famous as the king of the Chicago wheat pit, passed Sunday here as the guest of his parents, Mr. and Mrs. L. Z. Leiter, and thereby hangs a tale.

Last summer "Joe" Leiter visited this port on a yacht, and when he sailed away it was alleged by a number of local tradesmen that he did not settle some of his bills, refusing payment on the ground that he had been overcharged. Some lawyers here have had papers awaiting his coming, and on Saturday, soon after his arrival at the Vanderbilt mansion, which his son-in-law, Walter, occupies, he was arrested by E. S. Clark, a local attorney, who arrested him with a warrant which was issued on the complaint of George E. Soper, a local attorney.

After that the amount was not later, the robbers brutally maltreated their victims, and only desisted when the bank book showed the deposit of the money that they sought. After searching the house for other valuables or for a blank check the miscreants left.

So frightened were the couple that they kept silent until yesterday, when Mr. Kunkel's condition became such that the neighbors were called to produce a physician. Officers are now investigating.

According to the statements of Mr. and Mrs. Kunkel, it is believed that the outrage is the work of two professional burglars.

L. C. LUKE Could Not Sleep.

Rochelle Ave. and Bellevue St., Cincinnati, Ohio, August 15, 1903.

Mr. Luke says: "Some years ago I met with an accident which left my nerves in an awful condition. Could not sleep, could not rest. I tried five doctors but could get no relief. Was getting worse all the time, when a friend of mine recommended Paine's Celery Compound as being the best remedy I could take for nervousness and sleeplessness. I got a bottle and began to feel better from the very start. My nerves are strengthened so that I am now able to sleep as I used to before the accident. I have recommended it to several of my friends and it has always done them good. I keep a bottle in my house at all times."

Women Must Keep Away from Beer Gardens—Linnie Mann is Fined—The Police State.

William Broome attended the land auction Tuesday afternoon and left his horse for a few moments. Frank Cherry got in and drove the horse away, and when he saw that he was being pursued he got out of the buggy and ran. An affidavit was filed for his arrest Wednesday morning.

Ray Cole pleaded guilty to resisting an officer and carrying concealed weapons and was fined \$10 and costs on each charge.

Linnie Mann was arrested and fined for visiting William Lipperer's beer garden Tuesday night. Since the wine rooms have been closed, women have frequented beer gardens, and Mayor Crilly and Chief Sheridan are determined to break up the practice.

Repairing Sewer.

Tuesday afternoon, just before evening, a small hole was discovered in the street paving at the Emerson corner, a few feet from the street car tracks. On thrusting a long pole down it was discovered that the hole was quite extensive in size. The attention of the authorities was immediately called to the matter and a full investigation disclosed the fact that a part of the wall of the sewer connection had given way, thus allowing the dirt and gravel to fall through. This had been going on for some time until an excavation had been made as big as a small sized cistern directly under the street paving. It is a great wonder that no horse or heavy team had not broken through the paving above the hole. A red light danger signal was placed on the spot Tuesday night, and today a gang of workmen, under the supervision of Mr. James Wylie, of the board of public service, have been at work repairing the break in the sewer and filling up the hole.

WHILE DRUNK

Willard Springsteel Shot and Killed His Younger Brother and Later Surrendered to Police.

New York, Sept. 16—While in a state of drunken frenzy, Willard Springsteel, of Pleasantville, Westchester county, last night shot and killed John Springsteel, his younger brother. Willard, who is 45 years old, has been at odds with John for three years past because their mother left the latter \$10,000 and cut him off without a cent.

The murderer went home last night and burst in on the family shouting that he was going to kill somebody. His father and sister rushed from the house, but John remained. Finally Willard rushed to the kitchen where a shot gun was leaning against a cupboard door. The younger brother went to another room and shut and locked the door. The frenzied man in the kitchen, unable to force the door, fired through it one of the shots passing through his brother's heart. Willard took to the woods, but later returned and gave himself up.

The great number of dyspeptics is increasing daily. This is due to hurried eating and lack of care in selecting proper food.

There is nothing more effective to the rundown digestive organs than pure pepsin, and while pepsin alone corrects the overworked digestive organs, a tonic, such as pure port wine is also necessary to keep them in this condition.

Walther's Peptonized Port, to be found in all drug stores, combines in exact proportions the purest pepsin and richest port wine. It is highly recommended by thoughtful physicians. For sale by F. D. Hall.

Small size 50 cents, large size \$1.00.

The people of Cleveland voted for a three-cent fare street railroad. The supreme court overturned the government of every Ohio municipality and issued an injunction in connection with a quo warranto proceeding at the instance of Attorney General Sheets, Mark Hanna's man Friday. The people of Cleveland voted for a municipal lighting plant. For the second time in the history of Ohio jurisprudence an injunction was sustained in connection with a quo warranto proceeding and again the supreme court at the instance of Sheets throttled the will of Cleveland's people. Men have been sent to jail for expressing contempt of court; let us express our contempt of Sheets.

QUITE A DIFFERENT MATTER.

When the people up in Cleveland were talking about building a city lighting plant Hanna had them stopped on the ground that it would be socialistic for the public to put money into machinery to light city streets. Still, this is the same Hanna who is trying to have a ship subsidy bill passed, so that the people, whether they want to or not, will have to put their money into his friend, J. P. Morgan's ships. Of course, though, that isn't socialistic, because Morgan will still own the ships.

The Republican state board of remission reduced the taxes of the railroads in this state.

The Republican state board of tax remission was taken across the country from coast to coast in palace cars and wine and dined by the railroad companies. Can you afford to do the same? No. Then you cannot expect to have your taxes placed on the same basis by this Republican board. Simple, isn't it?

When a public official rides on a pass the taxpayer pays his fare—at about \$3 per mile.

"Stand pat," cried Hanna and his business partners in politics. But as soon as election was over they reduced the railroads' tax valuations \$28,000,000.

"Let well enough alone" is a good motto for Guilbert, who has served the public service corporations and drawn salary from the taxpayers for 20 years.

If Hanna gets real scared he may have Sheets enjoin the people from electing a legislature this fall. That's the way he does when Tom Johnson is whipping him in Cleveland.

SAVES YOUR TEETH

JOSHUA HANNA.

The junior senator from Ohio will never be able to shake off the name of "Joshua," given to him by his Democratic opponent, who referred to Senator Hanna's emulation of that gentleman of Biblical history, who said: "Stand still, sun of Gideon, and thou moon in the valley of Ajalon, until I wreak myself upon mine enemies." The name is appropriate, for what words of wisdom, logic or statesmanship have ever fallen from Senator Hanna's lips except, "Stand pat," "Let well enough alone," and "For God's sake, keep on letting well enough alone." The sum and substance of the Senator's advice is an appeal against progress, an outcry against advancement. The junior senator would have us kneel with our backs to the rising sun and worship the past. He would even be a modern Joshua, and command the rising sun to stand still, while Marcus wrecks himself upon his enemies. But the rising sun will not stand still for Joshua the Second. He is in league with a different order of beings than was his ancient namesake. The cries of "Stand pat," "Let well enough alone" and "For God's sake, keep on letting well enough alone" would have sounded peculiar if uttered by Daniel Webster, Henry Clay, Thomas H. Benton, James G. Blaine or Allen G. Thurman.

There was a time when statesmen were sent to the senate, when aman's desserts in public life were not measured by the length of his purse, and when the senate of the United States was something more than a millionaire's club. Let us not call upon the sun to stand still until we again have statesmen in the senate. We want men like Allen G. Thurman, who sold his government bonds lest he unconsciously be influenced to use his office to aid his private purse; not men like Joshua Hanna, who could not refrain from trading off federal appointments to Cleveland councilmen for votes to help his street railway company, which Joshua calls his savings bank. No, Joshua, the people at large are your enemies, upon whom you wish to wreak yourself. The sun will not stand still while you do so.

Your Health Depends on Your Kidneys
Every Reader Should Test the Wonderful Merits of this Great New Discovery
IRVING'S BUCHU WAFERS
If you wish to be rich in health, you should be careful of your KIDNEYS as a good financier is of his cash capital. Your KIDNEYS are your capital. Your health depends principally on them. If you keep THEM well you may possess your health in safety. Now by this is not meant that good financing for your health is to overlook all the other organs and merely look after your KIDNEYS. Your other organs may need care; but your KIDNEYS most because they do most. If you are sick begin with your KIDNEYS, because just as soon as they are well, they will help all the other organs to health.
For a great many years it has been the custom for people to say: "My Blood is out of order, it needs purifying, I feel all used up, my skin needs clearing, my Brain feels tired." They are right, but do they act right? They generally go and get a laxative to purify their blood; but does blood run through the bowels?
Science proves that all the purifying that your blood needs, in fact all that can be done, must be done by your KIDNEYS. The KIDNEYS are filters. They strain and purify your blood. When your blood is impure nothing can purify but your KIDNEYS. When the KIDNEYS are clogged from overwork of any kind, worry, exposure or excesses, they can be set right by that wonderful new remedy known as IRVING'S BUCHU WAFERS. They are a small wafer and pleasant to take. They are not a patent medicine or secret remedy, and the formula is cheerfully furnished to the numerous physicians who prescribe them in their practice, recognizing the efficiency of their ingredients, such as Buchu, Juniper Berries, Asparagus, and other valuable and purely vegetable extracts, which are so concentrated as to make them more than double their value.

JOHNSONMEETING IN NEWARK ON NEXT
FRIDAY NIGHT.Tent Will be Pitched on the Old Sixth
Street Graveyard—All Invited to
Attend.

The Johnson meeting in this city on
Friday night promises to be one of the
most successful ever held in Newark.
The tent will be pitched at the corner
of Sixth and Church streets. Arrange-
ments made by the committee have
been carefully considered and the
crowds will be well cared for. The lo-
cation of the tent is right in the heart
of the city, and a large crowd will
not doubt be present to hear the cele-
brated Cleveland Mayor and the other
speakers, who will be bound to inter-
est and instruct all who are concerned.
The meeting promises to be a record
breaker in point of attendance, for it
will be one that no voter who is inter-
ested in seeing a better administra-
tion in the State and a different char-
acter of legislation in force, can afford
to miss.

Mayor Johnson, as the Democratic
nominee for Governor, is making a
vigorous campaign in behalf of the
people against the greed of corpora-
tions, and in this hour when all Ohio
is stirred as it has not been for years,
his meetings are drawing large crowds
of intelligent voters everywhere who
give the closest attention to the dis-
cussion of important issues.

The tent is well seated and well
lighted and is rain proof, so in case
the weather is inclement it will not be
uncomfortable inside. The invitation
is extended to all who feel an inter-
est in just taxation and the other
pressing questions of the hour, no mat-
ter what their party affiliations may be
—and the ladies are asked to accom-
pany their fathers, husbands and gen-
tlemen friends, for in the questions at
issue they are as vitally interested as
the so-called sterner sex.

Dayton, O., Sept. 16—The seventh

Frank J. Kelly, of Cincinnati, who is
mentioned as a candidate for the presi-
dency, arrived yesterday. It is prob-
able that his selection will be made,
though the name of Charles E. Rowe,
superintendent of the Dayton water-
works department, has figured con-
spicuously in connection with the con-
tingent election. Mr. Rowe, however, says
that he would not accept the presi-
dency. He is the vice president of the
American Waterworks Association and
in all probability will succeed to the
presidency of that organization. Mr.
Kelly's chances for election are con-
sidered good, and he will likely be the
next incumbent.

Among the prominent men at the
convention is William Allen Veach, of
Newark, who for several years has
been secretary of the association. Mr.
Veach has studied the water question
from a scientific point and he is as
well versed in it as any man present.

Granville, O., Sept. 16—It is yet too
early to give a correct estimate of
Denison's chances in football this fall,
but there never before was such abun-
dant material out to practice as ap-
pears each afternoon at practice on
Beaver Field. The schedule this year,
including a game with O. S. U., is the
heaviest in the history of the college.
Coach Stanton who so gloriously led
the team to victory over Western Re-
serve and Kenyon last fall, and made
it possible to carry off the state cham-
pionship in baseball last spring, is
back, and is working the boys hard.
The definite makeup of the team will
probably not be announced until after
the first practice game, which will be
played against a local Columbus team
in Granville on September 19.

**SALVATION ARMY ATTACKS
KENTUCKY FEUD STRONGHOLD**ON HORSEBACK AND ATTIRED IN ROUGH RIDER UNIFORMS, THEY
ENTER BREATHITT COUNTY TO BATTLE FOR THE SOULS OF
THE MOUNTAINEERS.

Cincinnati, Sept. 16—A crusade for
the redemption of the feudists of
Breathitt and neighboring counties in
Kentucky started September 15, when
a squad of nine Salvation Army offi-
cers, attired in khaki rough rider uni-
forms, moved against the enemy. The

expedition is in command of Colonel
R. E. Holz, of Cleveland, who is a son
of Major William Holz and Captain
J. M. Holz, of Cleveland. Captain
Wood of Cleveland, Captain Wood of
Louisville, Staff Captain W. E. Wood
and Candidates R. A. and E. A. Wood
of Cincinnati, Staff Captain E. A. Wood
and Ensign Z. A. Wood of Ashburg.

The opening meeting was at Jackson-
ville, the capital of Breathitt county. The

ing about 25 miles a day, and they will

tain district, made famous by hundreds
of marauders, and into Tennessee, where
the crusade will come to an end on Oc-
tober 5. It will be a 200-mile trip.
Meetings will be held in all the
towns and villages and at every
cross road, where a half dozen can
be gathered together. It is Colonel
Holz's opinion that the army's meth-
ods of bringing men to salvation will
result in many converts. Sheriffs and
militiamen may come and go, but the
feuds keep on forever in Breathitt. Col-
onel Holz thinks that the simple word
of God brought home to the hearts of
the people will put an end to the
bloodletting. As the party moves along,
stations will be established and one of
the officers will be left behind at each
post to carry on and develop the work
started by the crusaders. The itine-
rary of this most unique campaign is as

Many are the stories told of the hor-

story is told of the Duke of Connaught,
brother of Edward VII. While return-

descended in suitable garments and de-

an hour he shoveled coal into the
open maws of the furnace. At the end
of that time he was glad to escape, but

NEW SHAPE IN MILLINERY

The Spanish effect of the black net is produced by the heavy jet-fringe pendant from the bun and the lace draped in mantilla fashion and falling on the shoulders. The crown is of puffed velvet, and two outstanding plumes are placed with good effect. The new box turban is in the emine effect, now so well thought of. The fur design is carried out in the new long-nap panne, with an underbrim and border in black velvet and a long coq plume in white falling over the back. The remaining model is in a new shape, combining the sailor and turban. The same emine effect is seen here, with ruchings of pale blue louisine and pompons in pale blue, tipped with black, form a piquant trimming.

DISAGREEABLE REFLECTIONS

The mirror never flatters; it tells the truth, no matter how much it may hurt the pride or how humiliating and disagreeable the reflections. A red, rough skin is fatal to beauty, and blackheads, blotches and pimples are ruinous to the complexion, and no wonder such desperate efforts are made to hide these blemishes, and cover over the defects, and some never stop to consider the danger in skin foods, face lotions, soaps, salves and powders, but apply them vigorously and often without regard to consequences, and many complexions are ruined by the chemicals and poisons contained in these cosmetics.

Skin diseases are due to internal causes, to humors and poisons in the blood, and to attempt a cure by external treatment is an endless, hopeless task. Some simple wash or ointment is often beneficial when the skin is much inflamed or itches, but you can't depend upon local remedies for permanent relief, for the blood is continually throwing off impurities which irritate and clog the glands and pores of the skin, and as long as the blood remains unhealthy, just so long will the eruptions last. To effectually and permanently cure skin troubles the blood must be purified and the system thoroughly cleansed and built up, and S. S. S., the well known blood purifier and tonic, is acknowledged superior to all other remedies for this purpose. It is the only guaranteed strictly vegetable blood remedy. It never deranges the system or impairs the digestion like Potash and Arsenic drugs of this character, but aids in the digestion and assimilation of food and improves the appetite. Being a blood purifier and tonic combined, the humors and poisons are counteracted and the blood made rich and pure, and at the same time the general health and system is rapidly built up and good health is established, and this, after all, is the secret of a smooth, soft skin and beautiful complexion.

Some two years ago I suffered a great deal, caused on account of bad blood. Small rash or pimples broke out over my body and kept getting worse day by day for over a year. Seeing S. S. S. advertised in the papers and having heard also it had cured several people in this city, concluded to give it a fair trial. After using the medicine for some time, taking in all six bottles, I was entirely cured.

GAME SCHEDULED

Between Cleveland and Cincinnati at Idlewild Park for Oct. 7 in the State Championship Series --Sidney Here This Week.

The greatest game of baseball ever scheduled for Newark will be played at Idlewild Park, October 7, when the Cleveland American League team, under Captain Napoleon Lajoie and the Cincinnati Reds under Joe Kelley will clash in a championship struggle.

The management of the Idlewild baseball club have endeavored all through the season to furnish the best in a baseball way that could be secured and these efforts will not cease as long as the present men are at the head of the club's affairs. The Idlewild team has played the best kind of baseball, and at a tremendous expense Pittsburgh was induced to come here. And now the management have arranged to give Newark people a chance that no others outside of Cleveland, Cincinnati and Columbus will have of seeing one of the greatest struggles for the state championship between the Reds and Blues. Only one game besides the Newark game will be played outside of Cleveland and Cincinnati and that one is to be played in Columbus.

The Newark game was scheduled for Dayton, but on account of labor troubles, and a boycott of the park in that city, it was decided to play it in Newark, one of the centers of union labor in Ohio.

This game will be played on Wednesday, October 7, and should be a great drawing card for every one who likes good baseball, and was secured at large expense for the benefit of baseball patrons in Newark.

Sidney Saturday and Sunday

The Sidney team, which plays Idlewild two games, one each on Saturday and Sunday at Idlewild Park, last season were undisputed champions of Ohio, and they have been playing great ball this season to hold their proud title. There is only one team which so far has been able to consistently defeat Sidney, and that team is Piqua, who broke even with Idlewild in the last two games played at the park.

The games next Saturday and Sunday promise much in the way of good baseball and exciting contests and good crowds should attend both games, which will be called at three o'clock.

The Northerns of Columbus, Ohio, have reorganized for the coming season. Any team wishing a game should address J. S. Russell, 31 E. Maynard avenue, Columbus, O.

Advocate's Football News.

The Advocate during this season has been the most exhaustive and reliable football news that can be read outside of the big metropolitan papers. The work of the Ohio college teams will be given prominence, especially those teams located in Columbus, Delaware, Gambier and Granville. All games played at the latter place will be written in detail by staff man, and the same will be true of many of the games played by Kenyon college at Gambier. All news pointed about the greatest of all college games, and the one least understood by the public, will be reliable and thoroughly up to date.

On next Saturday this paper will print an exhaustive article on football, giving in detail the prospects for the

season at all the principal colleges in America, both east and west, with the outlook for the season at the Ohio colleges, written for The Advocate by men who are on the ground and see the daily work at the places.

ROGER GRAY'S RETURN STRENGTHENS MINNESOTA.

When the football season was over last year Roger Gray, of the Minnesota team, left school and announced that he would not return. Dr. Williams began scouring the country for a right end to take his place, but none could be found. When the students had made up their mind that his would be one of the weak places on the team this season, Gray wrote a letter saying he had reconsidered and would again don the moleskin. He was on hand August 27 when the team left for the preliminary

JOHNSON MEETING FRIDAY.

Tom L. Johnson, Democratic candidate for Governor, will speak in Newark Friday night, September 18.

Many persons who feel tired, nervous and all worn out—not exactly sick, yet far from well—seek the aid of a physician when what they really need is a simple tonic—something to brace them up.

People thus ailing should try Walther's Peptonized Port. Sold at F. D. Hall's. It combines the richest old port wine with the very best of pepin. It creates a natural appetite, tones up the stomach, cures dyspepsia and indigestion.

Many physicians prescribe Walther's Peptonized Port when their patients need a dependable tonic.

Small size 50 cents, large size \$1.00.

A FAMOUS PLAYER

IS OUT OF THE GAME.

Although entitled to another year's play "Johnny" Flynn, Minnesota's famous guard and last year's captain, may not return this season. He has

JOHN FLYNN, Minnesota.

promised, however, to be on hand to assist in the coaching and to look after the interests of the candidates that will try for his position. Last year Flynn was not only the biggest but the strongest and headiest line player in the west. After the Michigan game "Hurry-Up" Yost said that Flynn was what kept the Michigan score down and saved the Gophers from a shutout.

MICHIGAN OUTLOOK GOOD.

Ann Arbor, Mich., Sept. 16.—Notwithstanding that reports from Ann Arbor have been discouraging as to the outlook for another championship eleven to represent the University of Michigan the outlook is excellent inasmuch as most of the stars are back again, with "Hurry-Up" Yost at the helm. Although "Boss" Weenes, Sweetey, McGuigan, Cole and Herrstein will be gone, Yost has a crew of veterans to draw from in filling the vacant positions.

Herbert Graver, who proved to be the best utility man in the west last season, will either take Herrstein's place at half, or Weekes' at quarter, which position he filled very creditably in the Notre Dame game when Weekes was out on account of injuries. At half he is far Herrstein's superior in receiving punts and advancing the ball to center and is a tower of strength behind the line.

Lawrence, who was sub at tackle last season, will undoubtedly take Cole's place in the line. He proved last season to be one of the best place kickers Michigan has had for years. He also established a wonderful record in goal kicking, sending the pigskin over the bar 43 out of 45 times. He is a star on offense, but is not up to the standard on defense. His previous experience and further coaching by Yost ought to develop him into a valuable man for the line.

Of last season's second team, Paul Dicke, the speedy Chicago halfback; Gooding, the 275-pound guard, and Dunlap at half are men who can be depended upon in helping to make up the new eleven.

With Captain Redden, Carter, Gregory, Heston, Madlock, Graver, Jones and Lawrence back again Michigan's chances to hold the championship are far more favorable than those of heretofore to get it away. Wisconsin will have to put out practically a new team

The Proper Treatment for a Sprained Ankle.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time. For sale by all druggists.

EXCITEMENT

CAUSED BY PISTOL SHOTS ON PUBLIC SQUARE.

Affair Was a Joke but Jailor Jamison Wasn't in on It—He Arrested the Man.

Considerable excitement was created on the streets and about the square Tuesday night about 9 o'clock when a man was seen running, apparently covered with blood, pursued by Officer Swank, who shot six times at the man. Holy Jamison, jailor at the county jail, saw the fellow and captured him, but upon the arrival of the city police, who explained the matter, he was released.

The man was Frederick W. Green, editor of the Eagle Messenger, the official organ of the Fraternal Order of Eagles, of Columbus, who attended the meeting of Lucking Aerie Tuesday night.

It was arranged with the patrolmen that he should leave the lodge room and be chased by the officers, who were detailed to catch him at a certain time. The shooting of Officer Swank was all prearranged, but Jamison was not in on the joke, and he saw his duty in a moment and captured the man, who, he thought, was escaping from the officers. Hundreds of people were attracted by the shooting.

JOHNSON AT STEUBENVILLE

Six Thousand People Hear Him At the Tent and the Old Town Is Stirred Up As Never Before By a Democratic Meeting.

Steubenville, O., Sept. 16.—The "red devil" and the tent worked up this town, the birthplace of Stanton, Lincoln's iron man, as it was never worked up before in a political campaign. At least this is the assertion made by the long heard Republicans who gathered "just to see" the conqueror of Senator Hanna in Cuyahoga county and who changed their minds and waited to take him by the hand when he finished. Over 6,000 persons were assembled under the canvas when the automobile chugged up with Mayor Johnson, John H. Clarke, Democratic candidate for Hanna's seat.

This meeting equalled and, in the opinion of some of Mr. Johnson's party, excelled the Akron meeting in the whoop-up characteristics of the crowd. Local politicians assert that it was the largest Democratic meeting ever held in Steubenville.

The tent was pitched about half a mile from the main street of the town. When the red devil left the hotel at 7:45 o'clock with a band and a small body of marching Democrats in the van, the streets along the route began to fill up with people. Before it had progressed two blocks there were hundreds on the sidewalks eager to catch a glimpse of the broad, fat man who was operating the machine. Every seat in the tent was occupied when the party filed in, and within ten minutes all the standing room was taken by the crowd that followed the choo-choo car. Mr. Clarke was the first to speak and he delivered one of his characteristic fine talks. This hill country is familiar to Mr. Clarke, he having been born at Lisbon, a short distance to the northwest, and he talked like a man who feels he is at home. His speech was the same in substance that he delivered at Alliance, though considerably shortened, as Mayor Johnson was to follow him. In making his off-repeated assertion that if elected to the senate he would sell his bank stock, Mr. Clarke explained that it was the standard established by Adams, Monroe and Thurman and other men. "I have it from the son of Allen G. Thurman," continued Mr. Clarke, "that his father, before he took his seat in the United States senate, sold every dollar's worth of United States bonds that he owned. These men did this not alone because they wanted their votes to be pure and unimpaired by personal considerations, but that they should be thought by the people to be pure."

Mayor Johnson arrived in Steubenville this evening at 5:15 p. m. from Cleveland, dusty, but not tired, and while supper was being prepared at the hotel he took a spin about the town in the carmine-bued flyer. He made a decided hit at the tent meeting and was generously applauded, being frequently interrupted with cheers. "I am appearing in a new role tonight," said the mayor, "that of official announcer, and I want to inform you that Mr. Peter Witt, our tax expert, is here, and after the entertainment will give you a picture talk with is stereophon. I want you to know this in advance, so that if any of you do not want to stay for the concert you can't say that I didn't tell you it was coming."

This was Mr. Witt's first appearance on the stump in this campaign, and though the crowd had already listened to two hours of talk, he held it three-quarters of an hour longer. The mayor and Mr. Clarke took front seats, as the mayor was anxious to know just what "Peter" had produced. If he didn't like it "Peter" would not be seen in the tent again. But the mayor liked the picture talk and the "concert" will be one of the features from this time on. Among other things he showed figures on the screen demonstrations that while molders' wages have been increased 17 per cent since the first day of September, 1898, the cost of food products has been increased more than 30 per cent. The molders, therefore, suffers a reduction in wages. This advance in the price of food products has netted the farmer an increased income of 21 per cent, but the same market quotations show that the things which the farmer has to buy have increased in cost 32 per cent. Someone in the audience interrupted Witt two or three times with questions as to his authority for the statements he made and the crowd became enraged at him. So far as boisterous applause goes, Witt carried off the honors of the evening.

Mayor Johnson made his usual vigorous talk on home rule, equitable taxation and two-cent railroad fare. He spoke of the hundreds of thousands of dollars that commercial travelers have to deposit with railroads as a guarantee that they will not dispose of the mileage books they purchase, and from one corner of the tent came an unusually vigorous demonstration. It developed that a half dozen traveling men were the ones applauding.

"This campaign is to be decided on the issues of today," said the mayor. "It is not a question of what the Democratic party stood for in 1860 or what the Republican party stood for. The question is what the parties stand for now. You must decide which is right."

"We have as our candidate for the supreme court Judge Dempsey, of Cincinnati, who decided, in conjunction with Republican Judge Smith, that the Cincinnati fifty-year franchise was invalid, and later, with this same Republican judge and one other sitting at the superior court of Hamilton county

declared that he iniquitous curative act was unconstitutional.

"The Republicans have for their candidate Judge Summers, who decided that the street railway franchises of Columbus were perpetual. I do not criticize him for that; it is the duty of a judge to decide as he thinks is right. What I criticize him for is that six months before he gave his decision to the public it was privately given out. I myself saw this decision six months before it was publicly handed down from the bench. I charge that Judge Summers deliberately withheld this opinion because he was a candidate for the nomination for judge of the supreme court and he feared if his decision became known that he would be defeated."

Mayor Johnson will run down to Bridgeport tomorrow morning, where he will make a noonday speech. He will then continue in the "red devil" across country to Cadiz, making a 3 o'clock speech there, and then on to New Philadelphia for the tent meeting at night. The trip is a big one, over innumerable hills, and the auto will have to do some mighty lively stunts to land the mayor at the tent in time for the meeting.

KILLING FROST

In the Corn Belt of Iowa, Illinois and Other States Is Predicted for Tonight.

Chicago, Sept. 16.—Killing frosts in the heart of the corn belt are predicted for tonight. Iowa, Illinois, northern Missouri and upper Kansas will be in the grip of a cold wave if the area of high pressure extends for 24 hours and lets in the most laden strata of air from the upper regions. The weather bureau says this condition is almost certain to continue until tardy corn crops in the states named are seriously injured. The prediction caused "weather market" to prevail on the board of trade this morning. Prospects of shortage because of damage to the crop sent corn for December delivery from 51 1/4 to 52 1/8 immediately after the board opened.

Advices show that there were killing frosts last night in portions of Nebraska, Iowa, Dakota, Minnesota and Kansas.

PANIC

At a Circus When Two Lion Cages Were Blown Over—The Rain Fell in Torrents.

East St. Louis, Ill., Sept. 16.—During a heavy thunder storm late yesterday afternoon the heavy wind overturned two cages containing lions in a park where the East St. Louis Fall Carnival is in progress. The cry was raised that the lions had escaped and panic ensued. In the driving rain men ran terror-stricken and many women fainted. Many took refuge in a tent which soon after fell adding to the uproar. When the rain had moderated it was found that the lions were still imprisoned in their cages overturned, and that no persons had suffered serious injury in the panic.

In St. Louis several buildings were struck by lightning during the storm. In the southern part of the city the rainfall assumed the nature of a waterspout, and water stood over two feet deep in the streets. Street car traffic was blocked for over an hour.

It is expected that the immigration into the United States for the year ending this month will total \$60,000. Two thirds of the immigrants are from Russia, Italy and Austro-Hungary.

SEVEN YEAR COMET IS ON DECK AGAIN.

Geneva, N. Y., Sept. 16.—A young comet, discovered in 1889, is on deck again and in all the observatories of the northern hemisphere the astronomers are taking long squints at it every night.

The youngster is known as the Brooks periodic comet, because it was the eagle eye of Professor William R. Brooks, of Smith observatory, this city, that nailed it first. He figured that it moved in an elliptical orbit, revolving around the sun once in seven years. Sure enough, in 1896, the kid comet plucked the heavens walked out into the gloaming and now on the year 1903 he's here again.

It has been discovered that the "Brooks" is attended by four small companion comets. In this it stands unique, and although it cannot be seen with the naked eye, the comet and its little friends is fascinating to the astronomers.

LEG CUT OFF.

Frazzysburg, O., Sept. 16.—A man giving his name as Carl Dubois, and hailing from Roseville, was picked up at Prior's crossing badly hurt. His right leg was cut off at the ankle and he was otherwise badly hurt. Garrett's section men found him and brought him to town and No. 33 took him on to the hospital at Columbus. His condition is thought to be serious.

DETECTIVE

Employed to Solve Mysterious Disappearance of Edward Poling—Believed He Was Murdered.

Defiance, O., Sept. 16.—Additional information regarding the disappearance of Edward Poling only increases the mysterious phases. Word from Battle Creek says he was never known to have been there. His grandfather, Robert Reed, of Spring Hill, Johnson county, Kan., wires that the boy has not been there. The only place from which no answer has come is Reddick, Ill., where he disappeared while in the employ of a doctor.

The lad's stepfather, Thomas Brookhart, and his guardian, James Shotwell, left this afternoon for Reddick, where they will cause a thorough investigation to be made. They will be met there by a Chicago detective, who has been employed to attempt a solution of the mystery.

His relatives are more than convinced that Poling's remains were "picked" in some medical institution in Chicago, the price for the body being the cause of his disappearance.

Young Poling was the owner of considerable real estate in Defiance county, it being left by his deceased father and now held by his guardian until the young man comes of age. His guardian has secured an order from the probate court to use the estate in finding the boy or prosecute his murderers.
